

At Grove City Christian School, Kindergarten is a special beginning of a lifetime of learning. We provide a loving environment where students can develop academically, spiritually, and physically under the guidance of trained Christian professionals.

Individual attention and close contact with parents sets GCCS apart from other schools. We offer smaller classes and a program that will challenge your child's abilities and develop his/her academic potential. This is accomplished in a guided social environment that emphasizes spiritual principles. You will have the opportunity to be an integral part of your kindergartener's education through volunteering in the classroom, chaperoning field trips, and attending special events.

At Grove City Christian School, kindergarten is a full day experience. This affords students additional enrichment opportunities in areas such as science, social studies, and reading.

The safety of our facility is under constant scrutiny and we work closely with the Grove City Police Department to see that it is monitored.

We welcome the opportunity to get to know your family and to answer your questions about our program and school.
